

VOLUNTEER REQUIREMENTS

We are so happy that you are interested in becoming a volunteer with Carolina Caring!

Listed below are **the steps to take** to begin your journey with us:

1. Fill out an application.

Email us at Volunteer@CarolinaCaring.org and we will send you the application to fill out.

2. Get a QuantiFERON-TB Gold Test

A blood test is completed at a convenient Labcorp location at no cost to you.

3. Background Check.

On your application, you will provide us the information needed to run a background check at no cost to you.

4. Online Training.

This consists of watching a series of videos on your own time. We will send you the link to the videos and you let us know when you have completed them.

5. In person training.

When the online training is completed, there will be an in-person training to review additional information not included in the videos as well as signing the necessary paperwork. This will either be done one-on-one with a staff member or with a group of other volunteers.

**Filling Each Day
with Purpose.**
